§ 451.3

- (2) Heat from a dry steam geothermal reservoir which—
- (i) Has no mobile liquid in its natural state:
- (ii) Is a fluid composed of at least 95 percent water vapor; and
- (iii) Has an enthalpy for the total produced fluid greater than or equal to 2.791 megajoules per kilogram (1200 British thermal units per pound).

State means the District of Columbia, Puerto Rico, and any of the States, territories, and possessions of the United States.

§451.3 Who may apply.

Any owner, or operator with the written consent of the owner, but not both, of a qualified renewable energy facility, may apply for incentive payments for net electric energy generated from a renewable energy source and sold.

§451.4 What is a qualified renewable energy facility.

In order to qualify for an incentive payment under this part, a renewable energy facility must meet the following qualifications—

- (a) Owner qualifications. The owner must be—
- (1) A State or a political subdivision of a State (or agency, authority, or instrumentality thereof);
- (2) A corporation or association wholly owned, directly or indirectly, by a State or a political subdivision of a State; or
- (3) A nonprofit electrical cooperative.
- (b) What constitutes ownership. The owner must have all rights to the beneficial use of the renewable energy facility, and legal title must be held by, or for the benefit of, the owner.
- (c) Sales affecting interstate commerce. The net electric energy generated by the renewable energy facility must be sold to another entity for consideration.
- (d) Type of renewable energy sources. The source of the electric energy for which an incentive payment is sought must be a renewable energy source, as defined in § 451.2.
- (e) *Time of first use.* The date of the first use of a newly constructed renewable energy facility, or a facility covered by paragraph (f) of this section,

must occur during the inclusive period beginning October 1, 1993, and ending on September 30, 2003.

- (f) Conversion of non-qualified facilities. Existing non-qualified facilities that are converted must meet either of the following criteria—
- (1) A facility employing solar, wind, geothermal or biomass sources must be refurbished during the allowed time of first use such that the fair market value of any previously used property does not exceed 20% of the facility's total value.
- (2) A facility not employing solar, wind, geothermal or biomass sources must be converted in part or in whole to a qualified facility during the allowed time of first use.
- (g) *Location*. The qualified renewable energy facility must be located in a State.

$\S451.5$ Where and when to apply.

- (a) *Pre-application and notification.* (1) An applicant may submit at any time a pre-application, containing the information described in §451.8 (a) through (e), to obtain a preliminary and conditional determination of eligibility.
- (2) To assist DOE in its budget planning, the owner or operator of a qualified renewable energy facility is requested to provide notification at least 6 months in advance of when a facility is expected to be first used, providing projected information specified in § 451.8 (a) through (e).
- (b) Application. (1) Except as provided by paragraph (b)(2) of this section, an application for an incentive payment for electric energy generated and sold in a fiscal year must be filed during the first quarter (October 1 through December 31) of the next fiscal year.
- (2) For energy generated and sold in fiscal year 1994, an application for incentive payment must be filed on or before September 5, 1995.
- (3) Failure to file an application in any fiscal year for payment for energy generated in the preceding fiscal year shall disqualify the owner or operator from eligibility for any incentive payment for energy generated in that preceding fiscal year.
